AMPA3043 Prepare head for inspection

Release: 1

AMPA3043 Prepare head for inspection

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Application

This unit describes the skills and knowledge required to prepare a head for inspection by exposing the required glands and lymph nodes.

This unit is applicable to those preparing heads for inspection by specifically exposing nominated glands.

All work should be carried out to comply with workplace procedures, customer requirements and product specifications.

This unit applies to individuals who work under broad direction and take responsibility for their own work including limited responsibility for the work of others. They provide and communicate solutions to a range of predictable problems.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

This unit must be delivered and assessed in the context of Australian meat processing standards and regulations.

Pre-requisite Unit

AMPX209 Sharpen knives

Unit Sector

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Prepare heads for inspection	1.1 Identify glands and lymph nodes to be exposed 1.2 Cut away tissue to expose glands and lymph nodes in accordance with work instructions and regulatory requirements 1.3 Identify and minimise sources of potential contamination and

Element	Performance criteria
	cross-contamination 1.4 Identify and follow workplace health and safety requirements for the preparation of heads for inspection

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to MTMP3042C Prepare head for inspection.

Assessment Requirements for AMPA3043 Prepare head for inspection

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must prepare a head for inspection by exposing the required glands and lymph nodes.

The candidate must:

- prepare head for inspection in accordance with work instructions and regulatory requirements
- identify contamination and take appropriate action
- apply communication skills relevant to work instructions and Standard Operating Procedures (SOPs)

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- basic anatomy associated with the location of glands and lymph nodes
- procedures for minimising contamination of product according to workplace requirements
- purpose of head inspection procedures

Assessment Conditions

Assessment must occur in a registered meat processing plant or facility.

Competency must be demonstrated in an operating meat processing plant or facility at normal production speed.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
