Assessment Requirements for AMPA3064 Bone small stock carcase - middle

Release: 1

Assessment Requirements for AMPA3064 Bone small stock carcase - middle

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must remove primal cuts from the trunk of a small stock carcase.

The candidate must:

- prepare and operate equipment according to workplace requirements
- check and correct where necessary, the accuracy of cutting lines
- bone the middle according to the work instructions and specifications, and at production speed
- identify contamination or abnormalities and handle according to workplace and regulatory requirements
- apply communication skills relevant to work instructions and Standard Operating Procedures (SOPs)

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- structure of the carcase and primal cutting lines
- procedure for removal of all primals to desired specifications
- sources of contamination and cross-contamination and the ways of minimising it
- importance of and technique required to maximise yield from a carcase
- work instructions and dropped meat procedures
- relevant regulatory requirements
- carcase defects and appropriate corrective actions.

Assessment Conditions

Assessment must occur in a registered meat processing plant or facility.

Competency must be demonstrated in an operating meat processing plant or facility at normal production speed.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time.

Assessors must satisfy the current standards for RTOs.
