Assessment Requirements for AMPA3065 Slice small stock carcase - shoulder

Release: 1

Assessment Requirements for AMPA3065 Slice small stock carcase - shoulder

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must slice and trim the relevant cuts of meat from the shoulder of a small stock carcase.

The candidate must:

- slice and trim small stock shoulder as specified in the work instruction
- check and adjust the accuracy of small stock cutting lines
- identify primal cuts
- identify out-of-specification product
- apply relevant regulatory requirements
- report defects accurately, promptly and in accordance with work instructions
- apply communication skills relevant to work instructions and Standard Operating Procedures (SOPs) when reporting to supervisors and interacting with team members.

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- primal or sub primal cutting lines as they relate to workplace specifications and regulatory requirements
- basic anatomy relevant to cutting lines
- how yield is calculated and why it is important
- causes of defects and out-of-specification products
- relevant regulatory requirements.

Assessment Conditions

Assessment must be conducted in a registered, operating meat processing plant or premises.

Competency must be demonstrated at the normal rate of production for that plant.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge

- workplace demonstration
- workplace referee or third-party report of performance over time.

Assessors must satisfy the current standards for RTOs.
