Assessment Requirements for AMPA3093 Use standard product descriptions - sheep and goats

Release: 1

Assessment Requirements for AMPA3093 Use standard product descriptions - sheep and goats

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must utilise a standardised product description language such as AUS-MEAT.

The candidate must:

- Identify anatomical features of a sheep or goat carcase
- Identify and name meat products using the standard product description
- undertake measurements and checking against specification requirements
- identify non-conforming product in accordance with specifications
- apply communication relevant to work instructions and Standard Operating Procedures (SOPs) and problem-solving skills
- apply relevant workplace health and safety, regulatory and workplace requirements

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- product specification requirements
- corrective action procedures for non-conforming product
- relevant workplace health and safety, regulatory and workplace requirements
- language specifications of sheep or goat product
- product specification points
- skeletal and anatomical structures and features of sheep or goat product to be specified

Assessment Conditions

Competency must be assessed in an operating meat processing plant.

Competency must be demonstrated when applying the language to actual carcasses and meat cuts.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration

- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
