AMPA3108 Manage NLIS for saleyard purchase of sheep or goats

Release: 1

AMPA3108 Manage NLIS for saleyard purchase of sheep or goats

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Application

This unit describes the skills and knowledge required to manage the National Livestock Identification System (NLIS) responsibilities for sheep or goats purchased at a saleyard, prior to their arrival at an abattoir.

This unit applies to stock buyers who are responsible for purchasing livestock from saleyards.

All work should be carried out to comply with workplace procedures, customer requirements and product specifications.

This unit applies to individuals who work under broad direction and take responsibility for their own work including limited responsibility for the work of others. They provide and communicate solutions to a range of predictable problems.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

This unit must be delivered and assessed in the context of Australian meat processing standards and regulations.

Pre-requisite Unit

AMPA3101 Overview of the NLIS for sheep goats

Unit Sector

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. ew and assess pre-sale information	1.1 Identify stock that meet the workplace or customer requirements prior to the sale
2. Confirm destination	2.1 Ensure buyer's destination Property Identification Code (PIC)

Element	Performance criteria
information	is known to the saleyard operators
3. Check the National Vendor Declaration (NVD)	3.1 Determine whether the mob is vendor-bred or non-vendor-bred 3.2 Conduct additional required checks for non-vendor bred sheep
4. Complete purchase	4.1 Confirm all required documentation is completed correctly 4.2 Complete purchase according to enterprise requirements
5. Secure Post Sale Summary (PSS) or buyer's reconciliation report	5.1 Check PSS for consistency with purchase decisions 5.2 Confirm that all National Vendor Declarations (NVDs) from which stock have been sourced are held by the agent 5.3 Obtain hard copies if required 5.4 Ensure PSS lists of mobs purchased are transferred to abattoir Property Identification Code (PIC) via NLIS account within the legal timeframe 5.5 Take corrective action as appropriate
6. Notify receiving plant of stock transfer details	6.1 Communicate stock transfer information according to workplace requirements

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to MTMP3115A Manage NLIS for saleyard purchase of sheep or goats.

Assessment Requirements for AMPA3108 Manage NLIS for saleyard purchase of sheep or goats

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must manage the National Livestock Identification System (NLIS) responsibilities for sheep or goats purchased at a saleyard, prior to their arrival at an abattoir.

The candidate must:

- view and assess pre-sale information
- confirm destination information
- check the NVD
- complete purchase
- secure PSS or buyer's reconciliation report
- notify receiving plant of stock transfer details
- read and interpret an NVD
- read and interpret a PSS
- use communication skills relevant to work instructions and Standard Operating Procedures (SOPs) to interact with agents, raise and explain issues and problems
- use negotiation skills to resolve issues such as problems with original location, incomplete NVDs or PICs
- use mathematical skills to validate data on PSS
- take appropriate steps to minimise workplace health and safety risks when working with livestock

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- the role of the NVD
- NLIS system, including the origin and nature of the system, its commercial importance, role in food safety and importing country requirements, role in traceability
- NLIS regulatory requirements in relation to producers, agents, saleyards and abattoirs
- purpose, nature of and regulations underpinning the use of PICs
- role and responsibilities of producers, agents, saleyards and abattoirs

- role and responsibilities of regulators, and other bodies such as Meat and Livestock Australia (MLA) in relation to NLIS
- status, abbreviations and what they mean, and the required actions to be taken in response
- how to deal with problems of consignment PIC

Assessment Conditions

Assessment must be conducted in the workplace.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
