AMPA3109 Manage, report and upload NLIS slaughter data from RFIDs

Release: 1

AMPA3109 Manage, report and upload NLIS slaughter data from RFIDs

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Application

This unit describes the skills and knowledge required to manage the reporting of slaughter data to the National Livestock Identification System (NLIS) data base.

This unit applies to Quality Assurance managers or livestock clerks who are responsible for reconciling actual slaughter data with the shift kill sheet. The unit also covers the uploading of data to the NLIS data base.

All work should be carried out to comply with workplace procedures, customer requirements and product specifications.

This unit applies to individuals who work under broad direction and take responsibility for their own work including limited responsibility for the work of others. They provide and communicate solutions to a range of predictable problems.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

This unit must be delivered and assessed in the context of Australian meat processing standards and regulations.

Pre-requisite Unit

AMPA3102 Overview of the NLIS program utilising RFIDs

Unit Sector

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Validate the kill sheet with slaughter floor	1.1 Liaise with slaughter staff floor to correct kill sheet discrepancies such as out of sequence stock, emergency kills,

Element	Performance criteria
staff	non-identified stock or non-reading devices 1.2 Validate slaughter numbers prior to upload of NLIS data
2. Upload data to the NLIS database	2.1 Access the NLIS database 2.2 Upload slaughter floor carcase feedback data
3. Check NLIS data upload history	3.1 Access the NLIS database 3.2 Ensure successful upload of data
4. Respond to email errors	4.1 Respond to emails from the NLIS database 4.2 View and respond to error reports 4.3 Resolve upload issues 4.4 Record and save resolution of errors 4.5 Implement corrective actions in response to ongoing non-compliance issues

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to MTMP3116A Manage, report and upload NLIS slaughter data from RFIDs.

Assessment Requirements for AMPA3109 Manage, report and upload NLIS slaughter data from RFIDs

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must manage the reporting of slaughter data to the National Livestock Identification System (NLIS) data base.

The candidate must:

- validate the kill sheet with slaughter floor staff
- upload data to the NLIS database
- check NLIS data upload history
- respond to email errors
- use communication skills relevant to work instructions and Standard Operating Procedures (SOPs) to:
 - validate the kill sheet
 - upload slaughter data to the NLIS database
 - resolve upload problems
 - raise and explain issues and problems with slaughter floor staff
- use negotiation skills to resolve issues
- take appropriate steps to minimise workplace health and safety risks when working with livestock

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- the NLIS system, including the origin and nature of the system, its commercial importance, role in food safety and importing country requirements, role in traceability
- NLIS regulatory requirements in relation to abattoirs
- sources of errors with slaughter data
- NLIS uploading procedures
- NLIS rules for responding to error emails
- on-site data storage procedures
- status, abbreviations and what they mean, and the required actions to be taken in response

Assessment Conditions

Assessment must be conducted in the workplace.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
