Assessment Requirements for AMPA3110 Manage, report and upload mob based NLIS data for sheep and goats

Release: 1

Assessment Requirements for AMPA3110 Manage, report and upload mob based NLIS data for sheep and goats

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must manage the reporting of slaughter data for the mob based National Livestock Identification System (NLIS) data base.

The candidate must:

- validate the kill sheet with slaughter floor staff
- upload data to the NLIS database
- check NLIS data upload history
- respond to upload errors
- reconcile difference between slaughter floor data and kill sheet
- use communication skills relevant to work instructions and Standard Operating Procedures (SOPs) to interact with the NLIS database and slaughter floor staff
- use negotiation skills to resolve issues
- take appropriate steps to minimise workplace health and safety risks when working with livestock

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- the NLIS system, including the origin and nature of the system, its commercial importance, role in food safety and importing country requirements, role in traceability
- NLIS regulatory requirements in relation to abattoirs
- sources of errors with NLIS data
- NLIS uploading procedures
- NLIS rules for responding to error emails
- data storage procedures
- status, abbreviations and what they mean, and the required actions to be taken in response

Assessment Conditions

Assessment must be conducted in the workplace.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
