AMPG302 Eviscerate, inspect and tag wild game carcase in the field

Release: 1

AMPG302 Eviscerate, inspect and tag wild game carcase in the field

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Application

This unit describes the skills and knowledge required to partially or fully eviscerate a wild game animal carcase in the field.

This unit is applicable to field harvesters who are required to partially or fully eviscerate wild game animal carcasses in the field prior to delivery of wild game carcasses to a field depot or wild game processing premises. Tagging will be carried out according to company and regulatory requirements.

All work should be carried out to comply with workplace procedures, customer requirements and product specifications.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

This unit must be delivered and assessed in the context of Australian meat processing standards and regulations.

Pre-requisite Unit

AMPX209 Sharpen knives

Unit Sector

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Eviscerate carcase	1.1 Perform post-harvesting inspection to identify any abnormality and disease 1.2 Eviscerate carcasses hygienically to company and regulatory requirements

Element	Performance criteria
	1.3 Consistently follow a set routine for evisceration 1.4 Identify abnormal conditions and conditions that exclude carcasses 1.5 Maintain hygiene between carcasses
2. Inspect carcase	2.1 Perform post-evisceration inspection for contamination 2.2 Identify diseases and conditions that exclude carcasses 2.3 Comply with trimming requirements
3. Tag animal and complete documentation	3.1 Accurately complete tagging requirements, where applicable to the species and regulatory requirement 3.2 Identify property by name and/or property identification code (PIC) 3.3 Identify species for the purposes of completing tags

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

This unit is equivalent to MTMG302A Eviscerate, inspect and tag wild game carcase in the field.

Assessment Requirements for AMPG302 Eviscerate, inspect and tag wild game carcase in the field

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must partially or fully eviscerate a game animal carcase in the field.

The candidate must:

- demonstrate competent evisceration of carcasses without guidance or supervision
- recognise diseases and abnormal conditions
- eviscerate carcasses hygienically and avoid contamination
- consistently follow a set routine for evisceration
- handle knives safely and hygienically
- identify species
- read and interpret required documentation
- apply numeracy skills relevant to completion of documentation
- develop practical solutions to workplace problems
- adapt to new situations
- manage time and priorities

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- types and causes of contamination
- trimming requirements
- relevant State Regulations
- relevant sections of the Australian Standard
- rejection and disposal processes
- hygiene and sanitation requirements
- company and regulatory requirements
- causes of contamination and cross contamination
- time requirements for evisceration
- workplace health and safety hazards associated with the field during evisceration of wild game carcasses
- corporate requirements for tagging procedures

- state wildlife/conservation authority requirements for tagging
- property/location identification protocols

Assessment Conditions

This competency must be demonstrated under actual work conditions while eviscerating, inspecting and tagging wild game carcase in the field.

As a minimum the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration (face to face or video)
- workplace referee or third-party (field depot or wild game processing premises) report of performance over time

Assessors must satisfy the current standards for RTOs.
