AMPLOA202 Store carcasses

Modification History

Release	Comments
2	This version was released in AMP Australian Meat Processing Training Package Release 9.2. Updated to show Mandatory workplace requirements in <i>italic</i> text.
1	This unit of competency was first released in AMP Australian Meat Processing Training Package Release 9.0.

Application

This unit describes the skills and knowledge required to move carcasses safely and hygienically into and out of freezers and/or chillers using a rail system.

This unit applies to individuals who work under general supervision in large-scale chiller and/or freezer storage facilities at meat processing, wholesaling or retailing premises.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety and food safety regulations, legislation and standards that apply to the workplace.

Mandatory workplace requirements apply to the assessment of this unit.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite unit(s)

Nil.

Competency field(s)

N/A

Unit sector(s)

Loadout Product (LOA)

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Prepare for work	1.1 Identify work instruction for storing carcasses 1.2 Identify workplace health and safety requirements for task, including personal protective equipment 1.3 Identify hygiene and sanitation, and food safety requirements for process 1.4 Identify safe manual handling techniques 1.5 Identify the escape procedure if locked in a freezer and/or chiller
2. Store carcasses	2.1 Identify carcasses for storage in appropriate area 2.2 Use rails to transfer carcase to designated storage area following workplace requirements 2.3 Check temperature of freezer and/or chiller is operating before loading carcasses, following workplace and regulatory requirements 2.4 Meet workplace health and safety requirements related to working in cold areas 2.5 Store carcasses at designated temperature following workplace and regulatory requirements

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	Interpret workplace requirements
Numeracy	- Interpret storeroom temperature gauges (°C) - Record storeroom temperatures (°C)

Range of conditions

This section specifies different work environments and conditions in which the task may be performed.

This unit must be delivered in one of the following registered meat processing work environments.

Micro meat processing premises	- operating fewer than four days a week with a small throughput for one or more, small or large, species, or - employing fewer than four workers on the processing floor
Larger meat processing premises	- operating more than four days a week with a throughput for one or more, small or large, species, or - employing more than four workers on the processing floor

Assessment Requirements for AMPLOA202 Store carcasses

Modification History

Release	Comments
2	This version was released in AMP Australian Meat Processing Training Package Release 9.2. Updated to show Mandatory workplace requirements in <i>italic</i> text.
1	This unit of competency was first released in AMP Australian Meat Processing Training Package Release 9.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has moved carcasses safely and hygienically into and out of freezers and/or chillers using a rail system, following workplace requirements, in a micro or larger meat processing premises.

There must also be evidence that the individual has completed two shifts on the job, fulfilling workplace requirements (these shifts may include normal rotations into and out of the relevant work task).

Mandatory workplace requirements

All performance evidence specified above must be demonstrated in a meat processing premises.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- workplace and regulatory requirements for storing carcasses
- methods used for product transfer
- safe manual handling techniques and equipment
- hygiene and sanitation requirements related to handling and storing carcasses
- importance of storing product at the required ambient temperature
- importance of storing carcasses apart to allow air circulation during initial carcass chilling
- potential workplace health and safety risks related to storing carcasses, transferring carcasses on a rail

- safety requirements and hazards associated with entering and working in chillers and/or freezers, including required personal protective equipment (and its limitations), and maximum work duration.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - *skills must be demonstrated at a meat processing premises with chilling and/or freezing facility, at workplace production speed*
- resources, equipment and materials:
 - *personal protective equipment*
 - *carcasses for storing*
- specifications:
 - *customer specifications*
 - *task-related documents*
- personnel:
 - *access to workplace supervisor or mentor.*

Assessment for this unit must include at least three forms of evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.

Mandatory workplace requirements

Mandatory workplace requirements are shown in *italic* text. Refer to the Companion Volume Implementation Guide for further information.
