Assessment Requirements for AMPLSK302

Assess cattle according to industry standards

Release: 1

Assessment Requirements for AMPLSK302 Assess cattle according to industry standards

Modification History

Release	Comments
Release 1	This version released with Australian Meat Processing Training Package Version 8.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has assessed at least five pens of cattle on two different occasions at an abattoir, property or saleyard, using AUS-MEAT industry standards and regulations and Meat & Livestock Australia (MLA) guidelines, including:

- worked safely around cattle
- handled cattle according to animal welfare regulations and requirements
- prepared a livestock assessment report using appropriate industry terms.

Mandatory workplace requirements

All performance evidence specified above must be demonstrated in an operating cattle property, saleyard or abattoir.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- the Australian cattle industry, including the distribution of cattle throughout Australia, key markets and stakeholders
- purpose of livestock assessment
- purpose of having a standardised livestock assessment language
- the cattle assessment process
- role of AUS-MEAT and MLA
- MLA guidelines
- AUS-MEAT industry standards and regulations
- AUS-MEAT sales prefixes and breed classifications
- methods of determining age
- cattle classification or scoring system, including sales prefixes
- cattle fat and muscle scores

- abnormalities that may affect price and potentially affect carcase value
- workplace health and safety hazards involved in working in and around cattle and handling facilities
- correct use of personal protective equipment (PPE)
- safe work practices for working in and around cattle
- definition and importance of animal welfare for cattle in the supply chain.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - *skills must be demonstrated in an operating cattle property, saleyard or abattoir*
- resources, equipment and materials:
 - *cattle to be assessed*
 - *PPE*
- specifications:
 - *AUS-MEAT industry standards and regulations*
 - *MLA guidelines*
 - *formats/templates for reporting*
- timeframes:
 - *within typical operating conditions for the workplace.*

Assessment for this unit must include at least three forms of evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards. Assessors can utilise e-technology to support assessments.

Mandatory workplace requirements

Mandatory workplace requirements are shown in *italic* text. Refer to the Companion Volume Implementation Guide for further information.
