Assessment Requirements for AMPQUA310 Inspect transportation container or vehicle

Release: 1

Assessment Requirements for AMPQUA310 Inspect transportation container or vehicle

Modification History

Release	Comments
Release 1	This version released with AMP Australian Meat Processing Training Package Version 8.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has inspected at least one meat transportation container or vehicle, including:

- assessed vehicle against workplace and regulatory standards and requirements
- identified any non-conformance in hygiene and sanitation, workplace health and safety, and licensing requirements
- taken corrective action if vehicle or container does not meet workplace or regulatory requirements
- prepared reports in standard formats.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- the purpose and intent of food and meat safety legislation and control measures for physical, chemical and microbiological risks to products to be transported
- potential sources of contamination and cross-contamination of product during transportation
- regulatory and workplace hygiene and sanitation requirements related to inspection of meat transport vehicles or containers
- licensing and registration requirements for meat transport vehicles
- construction requirements for vehicles specified in relevant Australian Standard
- workplace health and safety hazards and acceptable risk control methods, for working in food transportation containers and vehicles
- correct use of personal protective equipment (PPE)
- recording and reporting requirements.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a meat processing workplace or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - meat transport containers and/or vehicles
 - reporting systems
 - PPE
- specifications:
 - workplace procedures, including advice on safe work practices, meat safety, quality and environmental requirements
 - relevant Australian Standard.

Assessment for this unit must include at least three forms of evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
