Assessment Requirements for AMPQUA409 Review or develop an Emergency Animal Disease Response Plan

Release: 1

Assessment Requirements for AMPQUA409 Review or develop an Emergency Animal Disease Response Plan

Modification History

Release	Comments
Release 1	This version released with AMP Australian Meat Processing Training Package Version 8.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has reviewed or developed at least one Emergency Animal Disease Response Plan (EADRP) for a workplace operating as a meat processing premises.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- sections of the Australian Veterinary Emergency Plan (AUSVETPLAN) relevant to the workplace EADRP in meat processing premises, including:
 - risk reduction and contingency planning
 - response plans in a declared area
 - response plans in an infected or dangerous contact premises
- the differences between notifiable and emergency diseases covered by the Emergency Animal Disease Response Agreement
- location of information setting out required responses to listed emergency animal diseases
- regulatory requirements relevant to reviewing or developing the EADRP in meat processing premises
- roles and responsibilities of key personnel, including external personnel, during an emergency animal disease event
- required sections of an EADRP in meat processing premises
- common ancillary documents required for an EADRP, including flow charts, individual job cards, site maps, supplier lists and relevant signage
- National Livestock Identification System (NLIS) tags and warning status to identify affected animals
- how to deal with affected animals that have missing NLIS tags.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a workplace in which workers come in contact with animals or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - equipment and materials for producing and testing EADRP
- specifications:
 - access to AUSVETPLAN manuals
 - access to current legislation and regulations relevant to emergency animal disease response
 - access to workplace documents relevant to emergency animal disease response.
- relationships:
 - personnel to be involved in developing and checking EADRP, or realistic role-plays.

Assessment for this unit must include at least three forms of evidence.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
