Assessment Requirements for AMPR323 Break small stock carcasses for retail sale

Release: 1

Assessment Requirements for AMPR323 Break small stock carcasses for retail sale

Modification History

Release	TP Version	Comment
1	AMPv1.0	Initial release

Performance Evidence

The candidate must be able to demonstrate:

- breaking carcase into primal cuts for at least one small stock species
- identifying primary cut specifications for at least one small stock species
- using knife skills to enterprise speed and requirements

The candidate must:

- demonstrate safe manual-handling techniques
- breaking carcase into primal cuts for at least one small stock species
- identify primary cut specifications for at least one small stock species
- apply relevant communication skills
- identify contaminated product and take the appropriate corrective action according to workplace requirements
- apply relevant regulatory requirements

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- hygiene, workplace health and safety or workplace requirements when breaking carcasses
- quality requirements for breaking carcasses
- principles of contamination in regard to primary cuts
- primary cut specifications for appropriate species
- major anatomical structures of the carcase of appropriate species
- relevant regulatory requirements

Assessment Conditions

Competency must be demonstrated over time and under typical operating conditions for the enterprise.

Assessment must occur in the workplace under normal production conditions or in a simulated environment.

The following three forms of assessment must be used:

- quiz of underpinning knowledge
- demonstration in the workplace or simulated environment
- workplace referee or third-party report of performance over time

Assessors must satisfy current standards for RTOs.
