Assessment Requirements for AMPS211 Prepare dry ingredients

Release: 1

Assessment Requirements for AMPS211 Prepare dry ingredients

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must prepare dry ingredients in a smallgoods manufacturing establishment.

The candidate must:

- follow the requirements of the work instruction
- work at production speed
- calibrate scales (where required)
- follow a recipe correctly
- select ingredients according to product specifications
- weigh ingredients to product specifications and daily production requirements
- record usage of ingredients to workplace requirements
- explain and demonstrate batching in accordance with food standards code
- apply mathematical skills appropriate to the task
- apply relevant workplace health and safety, workplace and regulatory requirements
- use communication skills relevant to work instructions and Standard Operating Procedures (SOPs)

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- possible effects on product and on consumer health of using incorrect ingredients
- health and hygiene factors relating to the preparation of dry ingredients
- ingredient batches
- workplace health and safety requirements related to the preparation of dry ingredients
- relevant workplace and regulatory requirements
- various additives, spices, binders and ingredients and explain their functions in the product
- procedure for checking scale accuracy

Assessment Conditions

Competency must be demonstrated over time and under typical operating and production conditions for the enterprise.

Assessment must occur in the workplace under normal production conditions.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
