Assessment Requirements for AMPS213 Manually link and tie product

Release: 1

Assessment Requirements for AMPS213 Manually link and tie product

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must manually link and tie meat products.

The candidate must:

- follow the requirements of the work instruction
- work at production speed
- link and tie product to workplace, health and safety, and hygiene requirements
- handle knives safely and effectively (as required)
- identify, remove and report defective products to workplace requirements
- apply communication and mathematical skills relevant to work instructions and Standard Operating Procedures (SOPs)

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- rationale for linking, tying and hanging products
- workplace requirements for dealing with waste products and broken casings
- applicable regulatory requirements

Assessment Conditions

Competency must be demonstrated over time and under typical operating and production conditions for the enterprise.

Assessment must occur in the workplace under normal production conditions.

As a minimum, the following three forms of assessment must be used:

- workplace demonstration
- workplace referee's observation of performance over time
- quiz, question and answer

Assessors must satisfy the current standards for RTOs.
