Assessment Requirements for AMPS311 Operate complex slicing and packaging machinery

Release: 1

Assessment Requirements for AMPS311 Operate complex slicing and packaging machinery

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

Candidates must operate and control slicing and packaging machinery in smallgoods manufacturing operations.

Candidates must:

- follow the requirements of the work instruction
- work to production speed
- demonstrate correct use of protective clothing and equipment
- set up equipment to workplace requirements
- apply production documentation requirements and procedures
- efficiently and consistently operate machinery to workplace requirements
- identify potential dangers in specific plant and equipment
- apply fault-finding, rectification and reporting procedures
- complete shut-down processes as required
- apply communication and mathematical skills relevant to work instructions and Standard Operating Procedures (SOPs)
- observe relevant Quality Assurance (QA) and inspection procedures and systems
- apply relevant workplace health and safety and regulatory requirements

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- Standard Operating Procedures (SOPs)
- safe working procedures and symptoms
- materials and equipment specifications
- production documentation requirements and procedures
- relevant QA and inspection procedures and systems
- food safety and Hazard Analysis Critical Control Point (HACCP) requirements
- precautions necessary to ensure safety
- limits of authority

- optimisation of processing
- tolerances allowable in the quality system and when action should be taken
- workplace requirements for dealing with waste product
- relevant workplace health and safety, and regulatory requirements

Assessment Conditions

Competency must be demonstrated over time and under typical operating conditions for the enterprise.

Assessment must occur in the workplace under normal production conditions.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
