Assessment Requirements for AMPS315 Blend meat product

Release: 1

Assessment Requirements for AMPS315 Blend meat product

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

Candidates must prepare and operate blending equipment.

Candidates must:

- follow the requirements of the work instruction
- work at production speed
- use blending equipment to blend a variety of products to production requirements
- demonstrate effective operation of tools and equipment used for adjusting blending equipment
- demonstrate safe handling procedures for operating blending equipment
- operate equipment to manufacturer's specifications, workplace and health and safety requirements
- clean and maintain blending equipment as required in work instructions
- apply mathematical and communication skills relevant to the task
- learn new techniques, operate new equipment and adjust to workplace change as required
- apply relevant regulatory requirements
- take corrective action to improve own work performance

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- safe handling procedures for operating blending equipment
- conditions under which processing equipment might need adjusting
- cleaning and maintenance procedures for blending equipment if required in work instructions
- relevant regulatory requirements
- purpose and use of equipment used in blending

Assessment Conditions

Competency must be demonstrated over time and under typical operating and production conditions for the enterprise.

Assessment must occur in the workplace under normal production conditions.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
