Assessment Requirements for AMPX212 Package product using automatic packing and labelling equipment

Release: 1

Assessment Requirements for AMPX212 Package product using automatic packing and labelling equipment

Modification History

Release	TP Version	Comment
1	AMPv1.0	Initial release

Performance Evidence

The candidate must be observed packing and labelling meat products, using relevant equipment. Evidence must demonstrate the candidate's consistency of performance over time at production speed.

The candidate must:

- assemble the packaging unit
- check safety features are in place
- check the unit to ensure cleanliness and working order
- accurately enter information in labelling equipment
- set weight controls
- load product according to specifications
- operate packaging equipment to package products according to manufacturer's specifications, workplace, health and safety, hygiene and sanitation requirements
- adjust equipment settings according to packaging instructions or schedules
- complete packaging and labelling records accurately
- package product to customer specifications
- identify and report faults in equipment
- apply relevant communication and mathematical skills
- apply relevant regulatory requirements
- use estimation and manual scales to check-weigh product

Knowledge Evidence

The candidate must demonstrate a basic factual, technical and procedural knowledge of:

- methods of recording production
- regulatory requirements related to packaging
- features of the packaging unit including parts, safety features, start-up and shut-down procedures, possible faults and adjustments
- production schedule for automatic packing and labelling equipment
- relevant regulatory requirements

Assessment Conditions

Competency must be demonstrated using automated packaging equipment under conditions similar to the speed of production and within the parameters of the role and responsibilities.

Assessment must occur in the workplace under normal enterprise or production conditions or in a simulated environment.

The following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy current standards for RTOs.
