Assessment Requirements for AMPX310 Perform pre-operations hygiene assessment

Release: 2

Assessment Requirements for AMPX310 Perform pre-operations hygiene assessment

Modification History

Release	Comments
Release 2	This version released with AMP Australian Meat Processing Training Package Version 3.0.
Release 1	This version released with AMP Australian Meat Processing Training Package Version 2.0.

Performance Evidence

The candidate must undertake a pre-operations hygiene assessment prior to the commencement of production.

The candidate must:

- prepare for and conduct pre-operations hygiene assessment according to workplace, hygiene and sanitation, workplace health and safety and regulatory requirements
- use testing equipment correctly
- accurately interpret and record results
- consistently identify areas of non-conformance and take corrective action
- comply with workplace health and safety requirements
- apply relevant communication skills when reporting to supervisors and interacting with team members.

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- process for conducting pre-operational hygiene assessment
- likely causes of contamination
- corrective action to be taken when contamination is identified
- workplace record-keeping requirements
- regulatory requirements as they relate to pre-operational inspection processes
- relevant workplace health and safety requirements.

Assessment Conditions

Assessment must be conducted in an operating and registered meat processing plant or premises.

Competency must be demonstrated at the normal rate of production for that plant.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time.

Assessors must satisfy the current standards for RTOs.
