Assessment Requirements for AMPX311 Monitor production of packaged product to customer specifications

Release: 1

Assessment Requirements for AMPX311 Monitor production of packaged product to customer specifications

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must monitor packers and packaged product to ensure it meets customer and workplace specifications.

The candidate must:

- identify, explain and apply customer and workplace specifications
- check and assess packaged product according to workplace requirements
- address non-conformance in a timely manner
- identify and apply relevant regulatory requirements
- follow workplace health and safety, and hygiene and sanitation requirements
- maintain monitoring records to workplace requirements
- use communication skills relevant to work instructions and Standard Operating Procedures (SOPs)

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- customer specifications
- relevant workplace and regulatory requirements
- workplace monitoring requirements and processes
- causes of contamination and corrective actions
- workplace labelling systems and requirements
- actions to be taken for out-of-specification product

Assessment Conditions

Assessment must be conducted in an operating meat packing room.

Competency must be demonstrated at a rate of packing that meets workplace requirements over a period of time.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
