AMPX311 Monitor production of packaged product to customer specifications

Release: 1

AMPX311 Monitor production of packaged product to customer specifications

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Application

This unit describes the skills and knowledge required to monitor packers and packaged product to ensure it meets customer and workplace specifications.

This unit is applicable to products packaged in abattoirs, boning rooms, smallgoods plants, game processing plants, food services and wholesaling operations. This role will usually be performed by persons with leading hand responsibilities.

All work should be carried out to comply with workplace procedures, customer requirements and product specifications.

This unit applies to individuals who work under broad direction and take responsibility for their own work including limited responsibility for the work of others. They provide and communicate solutions to a range of predictable problems.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

This unit must be delivered and assessed in the context of Australian meat processing standards and regulations.

Pre-requisite Unit

Nil.

Unit Sector

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Identify customer and workplace	1.1 Identify and explain customer specifications for packaged

Element	Performance criteria
specifications	product 1.2 Identify any workplace or regulatory requirements which may be relevant 1.3 Explain workplace monitoring and recording requirements
2. Check and assess packaged product	2.1 Undertake checking regime according to workplace requirements 2.2 Check that meat product meets customer specifications 2.3 Check that packing confirms with customer and workplace requirements 2.4 Check that packaging process meets workplace hygiene and sanitation requirements and check for contamination 2.5 Observe workplace health and safety, and hygiene and sanitation requirements
3. Address non-conformance	3.1 Identify out-of-specification product 3.2 Identify required action according to workplace and regulatory requirements 3.3 Implement required action 3.4 Record action taken according to workplace requirements
4. Provide support to team members	4.1 Provide guidance and support to individual team members where necessary 4.2 Monitor speed and accuracy of team members and provide additional guidance and support where necessary 4.3 Ensure new staff receive additional support where required 4.4 Use communication skills to give clear instructions and advice

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Unit Mapping Information

New unit - no equivalent unit.

Assessment Requirements for AMPX311 Monitor production of packaged product to customer specifications

Modification History

Release	TP Version	Comment
1	AMPv2.0	Initial release

Performance Evidence

The candidate must monitor packers and packaged product to ensure it meets customer and workplace specifications.

The candidate must:

- identify, explain and apply customer and workplace specifications
- check and assess packaged product according to workplace requirements
- address non-conformance in a timely manner
- identify and apply relevant regulatory requirements
- follow workplace health and safety, and hygiene and sanitation requirements
- maintain monitoring records to workplace requirements
- use communication skills relevant to work instructions and Standard Operating Procedures (SOPs)

Knowledge Evidence

The candidate must demonstrate a factual, technical, procedural and theoretical knowledge of:

- customer specifications
- relevant workplace and regulatory requirements
- workplace monitoring requirements and processes
- causes of contamination and corrective actions
- workplace labelling systems and requirements
- actions to be taken for out-of-specification product

Assessment Conditions

Assessment must be conducted in an operating meat packing room.

Competency must be demonstrated at a rate of packing that meets workplace requirements over a period of time.

As a minimum, the following three forms of assessment must be used:

- quiz of underpinning knowledge
- workplace demonstration
- workplace referee or third-party report of performance over time

Assessors must satisfy the current standards for RTOs.
