Release: 1

AMPX401 Monitor meat preservation process

Modification History

Release	TP Version	Comment
1	AMPv1.0	Initial release

Application

This unit describes the skills and knowledge required to monitor the hygienic preservation of meat and ensure compliance with quality standards and regulatory requirements.

This unit is applicable to meat safety officers (inspectors) and Quality Assurance (QA) managers responsible for overseeing meat preservation.

All work is carried out to comply with product specifications, customer requirements and workplace procedures.

This unit applies to individuals who take responsibility for their own work and for the quality of the work of others within known parameters. They provide and communicate solutions to a range of predictable and sometimes unpredictable problems.

This unit must be delivered in the context of Australian meat processing standards and regulations.

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Elements and Performance Criteria

Element	Performance criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Overview the meat preservation process	1.1 Identify and explain types of preservation processes used by the meat industry 1.2 Identify meat quality required for preservation processes according to customer and workplace requirements

Element	Performance criteria
	1.3 Prepare ingredients and equipment required for the preservation process according to product specifications, hygiene and sanitation, and safety requirements
2. Monitor the meat preservation process	2.1 Inspect and monitor product and process to ensure meat is preserved to specifications, health, hygiene and customer requirements 2.2 Regularly monitor equipment or processes involved in the preservation process at critical control points 2.3 Monitor and follow procedures to ensure quality and hygiene of products at all times 2.4 Implement procedures for rejecting, reprocessing and/or recall for products which do not meet specifications or hygiene requirements

Foundation Skills

Foundation Skills essential to performance are explicit in the performance criteria of this unit of competency.
