Assessment Requirements for AUMGTM003 Install or replace mechanical units and assemblies

Release: 1

Assessment Requirements for AUMGMTM003 Install or replace mechanical units and assemblies

Modification History

Release	Comment
Release 1	Unit updated to reflect the new standards for Training Packages Replaces AUMGMTM3003 Install or replace mechanical units and assemblies

Performance Evidence

Before competency can be determined, individuals must have competently installed and replaced mechanical units and assemblies on a minimum of two occasions.

Individuals must demonstrate they can:

- interpret and follow work orders and working drawings
- install and replace mechanical units and assemblies according to workplace procedures and work health and safety (WHS) requirements
- test mechanical units and assemblies
- complete workplace documentation relating to installing and replacing mechanical units and assemblies.

Knowledge Evidence

Individuals must be able to demonstrate knowledge of:

- workplace procedures and WHS requirements relating to installing and replacing mechanical units and assemblies
- operating procedures for installation and replacement equipment
- procedures for operating lifting equipment
- techniques for installing and replacing mechanical units and assemblies
- testing procedures of mechanical units and assemblies
- communication protocols to report equipment faults.

Assessment Conditions

Assessors must satisfy SNR/AQTF assessor requirements.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the mechanical units and assemblies that they have installed and replaced, e.g. installation work sheets.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive workplace or simulated workplace
- tools, equipment and machinery required for the installation and assembly of mechanical units and assemblies
- mechanical units and assemblies
- workplace procedures and instructions relating to installing and replacing mechanical units and assemblies
- vehicle or simulated frame
- installation work sheets and job specifications.
