Assessment Requirements for AURAF108

Interpret and apply automotive repair instructions

Release: 1

Assessment Requirements for AURAF A108 Interpret and apply automotive repair instructions

Modification History

Release	Comments
Release 1	This version first released with AUR Automotive Retail, Service and Repair Training Package Version 6.0

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- interpret at least three different sets of work orders for different types of automotive repairs and for each work order:
 - prepare a work plan
 - follow the prepared work plan and
 - recommend automotive repair procedures when carrying out the repair work.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- workplace health and safety (WHS) requirements, including procedures for working safely with system being repaired
- automotive vehicle and repair terminology
- symbols, codes, legends and diagrammatic representations included in workplace manuals and recommended repair specifications
- repair work planning processes, including:
 - planning and sequencing tasks
 - preparing work area and selecting tools, materials and equipment
 - checking work against instructions and recommended repair specifications
- methods to locate recommended repair specifications, including:
 - original equipment manufacturer (OEM) specifications and procedures authorised agency requirements
 - use of specialist equipment
- automotive workplace repair procedures relating to:
 - quality and continuous improvement processes
 - workplace instructions and work orders

- equipment use, maintenance and storage
- environmental management, including waste disposal, recycling and reuse guidelines.

Assessment Conditions

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of tasks.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to having applied automotive repair instructions in the workplace, e.g. repair orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive repair workplace or simulated workplace
- OEM or authorised agency's recommended repair procedures
- repair instructions and work orders
- three different vehicles with repair requirements matched to work orders
- tools and equipment relating to automotive repairs
- workplace procedures relating to repair instructions.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
