AURKTJ013 Perform minor repairs to earthmoving and off-the-road tyres

Release: 1

AURKTJ013 Perform minor repairs to earthmoving and off-the-road tyres

Modification History

Release	Comment
Release 1	New unit of competency.

Application

This unit describes the performance outcomes required to inspect and perform minor repairs to earthmoving and off-the-road (OTR) tyres. It involves preparing for the task, inspecting and carrying out minor tyre repairs and completing work processes.

It applies to those who fit earthmoving and OTR tyres, wheel and rim assemblies of not less than 600 mm (24 inches) nominal diameter.

Licensing, legislative, regulatory, Australian standards or certification requirements may apply to this unit in some jurisdictions. Users are advised to check with the relevant regulatory authority.

Unit Sector

Technical - Wheels and Tyres

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
Elements describe the essential outcomes	Performance criteria describe the performance needed to demonstrate achievement of the element.
1. Prepare for inspection of the tyre	1.1 Obtain and interpret Australian standards for earthmoving and OTR tyres, workplace procedures and safety information 1.2 Identify site and task hazards, assess potential risks, and implement control measures in line with workplace policies 1.3 Complete initial workplace documentation for tyre inspection 1.4 Prepare and clean tyre for inspection 1.5 Position and secure tyre for inspection
2. Inspect the tyre	2.1 Identify extent and nature of internal and external tyre damage 2.2 Categorise damage in line with Australian standards 2.3 Identify repairable and non-repairable damage

ELEMENTS	PERFORMANCE CRITERIA
	2.4 Assess overall repairability and extent of repairs required
3. Carry out minor repair	3.1 Access and interpret information on appropriate manufacturer instructions and Australian standards 3.2 Identify task hazards and risks and apply risk controls to the equipment to be used 3.3 Carry out minor repair to tyre according to workplace procedures, manufacturer instructions and Australian standards
4. Complete work processes	4.1 Complete workplace documentation relating to tyre repair 4.2 Complete inspection documentation according to Australian standards 4.3 Store tyre according to workplace procedures 4.4 Clear work area and dispose of or recycle waste materials according to workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance and are not explicit in the performance criteria.

Skills	Description
Learning skills to:	identify information and assistance in manufacturer instructions and Australian standards relating to the inspection and repair of earthmoving and OTR tyres
Reading skills to:	- read and interpret information in: - written Australian standards, workplace procedures and manufacturer instructions - charts, lists, drawings and other applicable documents.
Writing skills to:	- document required repair actions - complete inspection documentation.
Oral communication skills to:	- ask questions to clarify instructions and procedures - report inspection and repair results.
Numeracy skills to:	- read and interpret metric and imperial systems of measurement. - read and interpret mathematical information, including charts and drawings - use specialist tools and measuring equipment, including: - gauges - pressure testing tools.

Skills	Description
Digital literacy skills to:	use workplace computerised technology and tools relating to the inspection and repair of earthmoving and OTR tyres.
Initiative skills to:	plan and prioritise own work to achieve required outcomes.
Planning and organising skills to:	- select and use appropriate equipment, materials, processes and procedures when inspecting and repairing tyres - recognise own limitations when selecting and using tools and equipment and seek timely advice.
Problem-solving skills to:	- seek information and assistance as required to solve problems - identify tyre condition and determine repair requirements.

Assessment Requirements for AURKTJ013 Perform minor repairs to earthmoving and off-the-road tyres

Modification History

Release	Comment
Release 1	New unit of competency.

Performance Evidence

The candidate must demonstrate they can perform the following according to the standards defined in the elements, performance criteria and foundation skills of this unit.

The candidate must demonstrate performance of minor repairs to earthmoving and off-the-road (OTR) tyres that safely follows workplace procedures to meet required outcomes, on a minimum of three occasions. This includes:

- determining control measures required to mitigate site and task hazards
- cleaning, preparing, positioning and securing the tyre for inspection
- inspecting the tyre for internal and external damage, categorise damaging and determining repairability of damage
- safely carry out minor repairs utilising workplace procedures, manufacturer instructions and Australian standards
- completing work processes, including storage of equipment and documentation.

The above work must be performed on wheel assemblies and rim assemblies of not less than 600 mm (24 inches) nominal diameter.

Knowledge Evidence

The candidate must demonstrate the following knowledge:

Key policies and procedures for performing of minor repairs to earthmoving and OTR tyres, including:

- how to locate and interpret manufacturers specifications, Australian standards and workplace procedures for inspecting and repairing earthmoving and OTR tyres
- hazard identification procedures and risk control methods relevant to inspecting and repairing earthmoving and OTR tyres
- inspection procedures for earthmoving and OTR tyres
- procedures for identifying and undertaking minor repairs to earthmoving and OTR tyres
- procedures for reporting damage and repair work on earthmoving and OTR tyres

Key types of tyre damage, including repairable and non-repairable damage including:

- indicators of tyre damage.
-

Assessment Conditions

The assessment must:

- include access to:
 - a workplace or simulated workplace that reflects workplace conditions - where simulation is used, it must reflect real working conditions by modelling industry operating conditions and contingencies, as well as, using suitable facilities, equipment and resources
 - repair orders and workplace instructions relating to performing minor repairs to earthmoving and OTR tyres
 - WHS requirements and workplace procedures relevant to performing minor repairs to earthmoving and OTR tyres
 - manufacturer specifications and procedures or equivalent documentation for performing minor repairs to earthmoving and OTR tyres
 - Australian standards relevant to performing minor repairs to earthmoving and OTR tyres
 - earthmoving and OTR tyres
 - manufacturer instructions and workplace procedures relevant to performing minor repairs to earthmoving and OTR tyres
 - tools and equipment required for performing minor repairs to earthmoving and OTR tyres
 - workplace location or simulated workplace
- be demonstrated in the workplace or in a simulated environment that reflects workplace conditions
- be conducted in a safe environment
- be assessed in compliance with relevant policies, procedures, processes and operational manuals directly related to the industry sector for which it is being assessed
- confirm consistent performance can be applied in a range of relevant workplace circumstances.

Assessor requirements

Assessors of this unit must:

- satisfy the assessor requirements in applicable vocational education and training legislation, frameworks and/or standards.
