AURMMA007 Follow motor sport event and team safety requirements

Release: 1

AURMMA007 Follow motor sport event and team safety requirements

Modification History

Release	Comment
Release 1	New unit of competency.

Application

This unit describes the performance outcomes required to safely operate in a motor sport team. It involves understanding motor sport event and team safety rules and regulations, and identifying risks in the team operating area.

It applies to those working in the motor sport industry.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Competency Field

Motor sport

Unit Sector

Management, Leadership and Supervision

Elements and Performance Criteria

Elements	Performance Criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold and italicised text is used, further information is detailed in the range of conditions section.
1. Identify safety requirements for event	1.1 Controlling body rules, category rules and supplementary regulations are sourced and interpreted 1.2 Unsafe situations and potential hazards are identified, reported and documented as required 1.3 Personal safety requirements are identified from team procedures and controlling body rules

Elements	Performance Criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold and italicised text is used, further information is detailed in the range of conditions section.
2. Follow safety requirements during event	2.1 Controlling body rules, category rules and supplementary regulations are followed 2.2 Personal and motor sport team <i>safety procedures and requirements</i> are clarified and followed in own work situation 2.3 Dangerous goods and hazardous substances are safely handled and stored according to team procedures 2.4 Team procedures for dealing with incidents, accidents and emergencies are followed as required

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance and are not explicit in the performance criteria.

Skills	Description
Learning skills to:	source controlling body rules, category rules, and supplementary regulations regarding motor sport event and team safety requirements for individual motor sport events.
Reading skills to:	- interpret team safety procedures and requirements and controlling body rules, category rules and supplementary regulations - interpret labels and signage associated with dangerous goods and hazardous substances.
Writing skills to:	legibly and accurately fill out documentation relating to unsafe situations and hazards.
Oral communication skills to:	report unsafe situations and hazards and clarify team safety procedures and requirements.
Problem solving skills to:	- implement team safety requirements, controlling body rules, category rules, and supplementary regulations: - to manage unsafe situations and hazards - in own work situation.

Range of Conditions

This section specifies work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included. Bold italicised wording, if used in the performance criteria, is detailed below.

<i>Safety procedures and requirements</i> must include:	• work health and safety (WHS) and occupational health and safety (OHS) requirements relating to motor sport event and team safety procedures, including procedures for: • selecting and using personal protective equipment (PPE) • following emergency procedures for accidents and injuries • handling and storing dangerous goods and hazardous substances • undertaking preventative measures, including: • maintaining a clean and tidy work area • ensuring tooling and equipment are clean and functional.

Assessment Requirements for AURMMA007 Follow motor sport event and team safety requirements

Modification History

Release	Comment
Release 1	New unit of competency.

Performance Evidence

Before competency can be determined, individuals must demonstrate they can perform the following according to the standards defined in this unit's elements, performance criteria, range of conditions and foundation skills:

- follow motor sport event and team safety requirements at two different motor sport events.

Knowledge Evidence

Individuals must be able to demonstrate knowledge of:

- work health and safety (WHS) and occupational health and safety (OHS) requirements relating to motor sport event and team safety procedures, including procedures for:
 - selecting and using personal protective equipment (PPE)
 - following emergency procedures for accidents and injuries
 - handling and storing dangerous goods and hazardous chemicals
 - undertaking preventative measures, including:
 - maintaining a clean and tidy work area
 - ensuring tooling and equipment are clean and functional
- key requirements of controlling body rules, category rules and supplementary regulations relating to above motor sport events.

Assessment Conditions

Assessors must satisfy NVR/AQTF assessor requirements.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of tasks.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to having followed personal and team safety requirements during motor sport events, e.g. event sign-on sheet.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- two different motor sport events
- controlling body rules, category rules and supplementary regulations for the motor sport events
- personal and motor sport team safety procedures and requirements, including PPE
- dangerous goods and hazardous chemicals associated with motor sport events.
