AURVTG002 Remove and install rubber glazed windscreens

Release: 1

AURVTG002 Remove and install rubber glazed windscreens

Modification History

Release	Comment
Release 1	New unit of competency.

Application

This unit describes the performance outcomes required to remove and install rubber glazed windscreens on a range of vehicles. It involves preparing for the task, selecting and using specialist tools and equipment according to removal and installation procedures, applying rubber sealants and adhesives according to manufacturer specifications, cleaning and finishing the windscreen, and completing workplace processes and documentation.

It applies to those working in the automotive glazing service and repair industry.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Competency Field

Vehicle Body

Unit Sector

Technical - Glazing

Elements and Performance Criteria

Elements	Performance Criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold and italicised text is used, further information is detailed in the range of conditions section.
1. Prepare to remove and install rubber glazed windscreen	1.1 Job requirements are determined from workplace instructions 1.2 Removal and installation information is accessed and interpreted from windscreen and vehicle manufacturer specifications, workplace procedures, and sealant and adhesive safety data sheets (SDS)

Elements	Performance Criteria
Elements describe the essential outcomes.	Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold and italicised text is used, further information is detailed in the range of conditions section.
	1.3 Work is planned to minimise waste and use time efficiently 1.4 Vehicle is inspected to ensure there is no prior damage and that all related accessories are operating correctly 1.5 Glazing materials , including windscreens, are selected according to windscreen and vehicle manufacturer specifications, and are inspected for quality 1.6 Hazards associated with the work are identified and risks are managed 1.7 Tools and equipment are selected and checked for serviceability 1.8 Vehicle is protected and safely located according to workplace procedures
2. Carry out removal and installation activities	2.1 Windscreen is removed according to manufacturer specifications, and safety and environmental requirements , and without causing damage to vehicle or components 2.2 Replacement windscreen is installed, sealed and finished according to manufacturer specifications and safety and environmental requirements 2.3 Adhesive is cured according to adhesive manufacturer specifications and timelines, as required
3. Complete work processes	3.1 Final inspection is made to ensure work meets workplace expectations, related accessories are operating correctly, and vehicle is presented ready for use 3.2 Work area is cleaned, waste and non-recyclable materials are disposed of, and recyclable material is collected and stored 3.3 Tools and equipment are checked, reported if faulty, and stored according to workplace procedures 3.4 Workplace documentation is processed according to workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance and are not explicit in the performance criteria.

Skills	Description
Learning skills to:	locate appropriate sources of information efficiently.

Skills	Description
Writing skills to:	legibly and accurately fill out workplace documentation.
Oral communication skills to:	- clarify instructions and procedures - clearly report issues or outcomes.
Numeracy skills to:	interpret numerical information in specifications, and record it accurately.
Planning and organising skills to:	plan own work requirements and prioritise actions to achieve required outcomes and ensure tasks are completed within workplace timeframes.
Technology skills to:	use specialist removal and installation equipment.

Range of Conditions

This section specifies work environments and conditions that may affect performance.

Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included.

Bold italicised wording, if used in the performance criteria, is detailed below.

<i>Materials</i> must include:	- rubbers - sealing compounds - solvents and glass cleaning materials.
<i>Tools and equipment</i> must include:	- personal protective equipment (PPE) - specialised hand tools and equipment for removing rubber glazed windscreens.
<i>Safety and environmental requirements</i> must include:	- work health and safety (WHS) and occupational health and safety (OHS) requirements, including procedures for: - selecting and using PPE - using SDS for sealants and adhesives - material handling and storage - environmental requirements, including procedures for trapping, storing and disposing of waste materials and chemicals.
