Assessment Requirements for AURVTG008 Cut and process vehicle and machinery flat laminated glass

Release: 1

Assessment Requirements for AURVTG008 Cut and process vehicle and machinery flat laminated glass

Modification History

Release	Comment
Release 1	New unit of competency.

Performance Evidence

Before competency can be determined, individuals must demonstrate they can perform the following according to the standard defined in this unit's elements, performance criteria, range of conditions and foundation skills:

- mark, cut, process and finish two different flat laminated glass sections, including:
 - one arris finish
 - one bevel edge.

Knowledge Evidence

Individuals must be able to demonstrate knowledge of:

- work health and safety (WHS) and occupational health and safety (OHS) requirements relating to cutting and processing vehicle and machinery flat laminated glass, including procedures for:
 - selecting and using personal protective equipment (PPE)
 - using tools and equipment
 - using safety data sheets (SDS) for laminated glass
 - material handling and storage
- environmental requirements, including procedures for trapping, storing and disposing of waste material
- methods and procedures for cutting and processing flat laminated glass, including:
 - manufacturer technical information and specifications
 - template and pattern fabrication
 - different template materials
 - measuring and marking out procedures
 - glass handling and storage processes
 - glass cutting methods and techniques

- use of glass cutting and arrising equipment
- type and use of specialist tools and equipment
- workplace glass cutting quality standards
- cleaning materials and techniques
- procedures for final inspection of cut flat laminated glass.

Assessment Conditions

Assessors must satisfy NVR/AQTF assessor requirements.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of task.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the flat laminated glass that they prepared and cut, e.g. work orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive glazing workplace, off-site workplace location or simulated workplace
- workplace instructions
- SDS for laminated glass
- template and pattern specifications
- PPE required to cut laminated glass
- template materials
- flat laminated glass sheets as specified in the performance evidence
- tools and equipment appropriate for cutting and processing flat laminated glass.
