Assessment Requirements for AURVTG103 Remove and install butyl sealed windscreens

Release: 1

Assessment Requirements for AURVTG103 Remove and install butyl sealed windscreens

Modification History

Release	Comments
Release 1	This version first released with AUR Automotive Retail, Service and Repair Training Package Version 6.0

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- remove and install butyl sealed windscreens on at least two different vehicles.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- methods to locate and interpret information required to remove and install butyl sealed windscreens, including:
 - safety data sheets (SDS) relating to butyl sealants
 - manufacturer's specifications or equivalent documentation
- workplace procedures required to remove and install butyl sealed windscreens, including:
 - establishing the serviceability of tools and equipment
 - documentation procedures
 - housekeeping procedures, including:
 - examination of tools and equipment
 - storage of equipment
 - identification, tagging and isolation of faulty equipment
 - disposal of excess materials
 - recycling procedures
- workplace health and safety (WHS) requirements relating to removing and installing butyl sealed windscreens, including procedures for:
 - selecting and using personal protective equipment (PPE)
 - using safety data sheets (SDS) for butyl sealants
 - material handling and storage

- environmental requirements, including procedures for trapping, storing and disposing of waste materials and chemicals
- removal and installation methods and techniques for butyl sealed windscreens, including:
 - windscreen handling techniques
 - butyl sealing methods
- inspection procedures to ensure correct operation of components prior to carrying out windscreen replacement
- procedures for protecting vehicle and components before and during windscreen removal and installation
- procedures for final inspection of fitted butyl sealed windscreens.

Assessment Conditions

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of task.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the butyl sealed windscreens they have removed and installed, e.g. work orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive glazing workplace, off-site workplace location or simulated workplace
- workplace instructions
- SDS for butyl sealants
- PPE required to remove and install butyl sealed windscreens
- vehicle manufacturer, windscreen supplier, and specific workplace technical specifications
- two different vehicles or frames requiring windscreen to be fitted using butyl sealed techniques
- vehicle protection covers
- cleaning agents
- tools, equipment and materials appropriate for removing and installing butyl sealed windscreens.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
