Assessment Requirements for AURVTG105 Remove and install framed type windscreens

Release: 1

Assessment Requirements for AURVTG105 Remove and install framed type windscreens

Modification History

Release	Comments
Release 1	This version first released with AUR Automotive Retail, Service and Repair Training Package Version 6.0

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- remove and install framed type windscreens on at least two different vehicles.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- methods to locate and interpret information required to remove and install framed type windscreens, including:
 - safety data sheets (SDS) relating to sealants
 - manufacturer's specifications or equivalent documentation
- workplace procedures required to remove and install framed type windscreens, including:
 - establishing the serviceability of tools and equipment
 - documentation procedures
 - housekeeping procedures, including:
 - examination of tools and equipment
 - storage of equipment
 - identification, tagging and isolation of faulty equipment
 - disposal of excess materials
 - recycling procedures
- workplace health and safety (WHS) requirements relating to removing and installing framed type windscreens, including procedures for:
 - selecting and using personal protective equipment (PPE)
 - using tools and lifting equipment
 - using SDS for sealants
 - material handling and storage

- environmental requirements relating to removing and installing framed type windscreens, including procedures for trapping, storing and disposing of waste materials and chemicals
- types and use of windscreen specialist tools, equipment and materials, including:
 - types of framed windscreens
 - lifting assistance tools to help install windscreens
 - sealants and adhesives
 - solvents and glass cleaning materials
- removal and installation methods and techniques for removing and installing framed type windscreens, including:
 - windscreen handling techniques
 - sealing methods
- inspection procedures to ensure correct operation of components prior to carrying out windscreen replacement
- procedures for protecting vehicle and components before and during windscreen removal and installation
- procedures for final inspection of fitted framed type windscreens.

Assessment Conditions

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of task.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the framed type windscreens they have removed and installed, e.g. work orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive glazing workplace, off-site workplace location or simulated workplace
- workplace instructions
- SDS for sealants
- PPE required to remove and install framed type windscreens
- vehicle manufacturer, windscreen supplier, and specific workplace technical specifications
- frame type windscreens
- two different vehicles or frames requiring framed type windscreen to be fitted
- vehicle protection covers
- tools, equipment and materials appropriate for removing and installing framed type windscreens.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
