Assessment Requirements for AURVTN012 Install vehicle sunroofs

Release: 1

Assessment Requirements for AURVTN012 Install vehicle sunroofs

Modification History

Release	Comment
Release 1	New unit of competency.

Performance Evidence

Before competency can be determined, individuals must demonstrate they can perform the following according to the standard defined in this unit's elements, performance, range of conditions and foundation skills:

- install a sunroof to a vehicle.

Knowledge Evidence

Individuals must be able to demonstrate knowledge of:

- work health and safety (WHS) and occupational health and safety (OHS) requirements relating to installing vehicle sunroofs, including procedures for:
 - selecting and using personal protecting equipment (PPE)
 - manually handling sunroofs
 - using tools and equipment
- environmental requirements, including procedures for trapping, storing and disposing of waste materials
- sunroof installation methods and techniques, including:
 - tools, equipment and materials to install vehicle sunroof
 - identifying sunroof specifications and fitting location
 - measuring and marking procedures prior to cutting vehicle roof and installing the sunroof
 - template fabrication techniques
 - panel and trim cutting procedures
 - panel reinforcing methods
- procedures for protecting vehicle and components when installing sunroofs
- procedures for final inspection and testing of fitted vehicle sunroof.

Assessment Conditions

Assessors must satisfy NVR/AQTF assessor requirements.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of tasks.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the vehicle sunroofs they have installed, e.g. work orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive workplace or simulated workplace
- workplace instructions
- sunroof installation instructions, methods and specifications
- materials to fabricate templates to sunroof specifications
- vehicle or frame requiring the installation of a sunroof
- vehicle sunroof
- tools, equipment and materials appropriate for installing vehicle sunroofs, including required PPE.
