Assessment Requirements for AURVTN032

Inspect vehicle damage and determine repair procedures

Release: 1

Assessment Requirements for AURVTN032 Inspect vehicle damage and determine repair procedures

Modification History

Release	Comment
Release 1	New unit of competency.

Performance Evidence

Before competency can be determined, individuals must demonstrate they can perform the following according to the standard defined in this unit's elements, performance criteria, range of conditions and foundation skills:

- inspect three different damaged vehicles and legibly prepare damage inspection reports and recommended repair plans for each.

Knowledge Evidence

Individuals must be able to demonstrate knowledge of:

- work health and safety (WHS) and occupational health and safety (OHS) requirements relating to inspecting vehicle damage and determining repair procedures, including procedures for:
 - selecting and using personal protective equipment (PPE)
 - using measuring equipment
- original equipment manufacturer (OEM) or authorised agency's vehicle specifications and repair procedures
- types and application of vehicle inspection methods, including:
 - visual checking
 - physical checking, including:
 - taking measurements
 - partial dismantling
 - referencing OEM or authorised agency's specifications
- procedures to determine indirect damage
- reporting requirements.

Assessment Conditions

Assessors must satisfy NVR/AQTF assessor requirements.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of tasks.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the damaged vehicles that they have inspected, e.g. work orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive workplace or simulated workplace
- workplace instructions
- OEM or authorised agency's vehicle specifications and repair procedures
- three different damaged vehicles requiring inspection
- tools, equipment and materials appropriate for inspecting vehicle damage and determining repair procedures.
