Assessment Requirements for AURVTN042 Dismantle vehicle components

Release: 1

Assessment Requirements for AURVTN042 Dismantle vehicle components

Modification History

Release	Comment
Release 1	New unit of competency.

Performance Evidence

Before competency can be determined, individuals must demonstrate they can perform the following according to the standard defined in this unit's elements, performance criteria, range of conditions and foundation skills:

- dismantle, clean and tag five of the following vehicle units in line with workplace procedures:
 - engine and cooling system
 - suspension system
 - steering system
 - final drive assembly
 - exhaust system
 - body panels.

Knowledge Evidence

Individuals must be able to demonstrate knowledge of:

- work health and safety (WHS) and occupational health and safety (OHS) requirements relating to dismantling vehicle components, including procedures for:
 - selecting and using personal protective equipment (PPE)
 - manually handling and storing vehicle components
 - using tools and equipment
- environmental requirements, including procedures for trapping, storing and disposing of vehicle fluids, gas and other waste materials released during the dismantling process
- dismantling procedures, including:
 - original equipment manufacturer (OEM) specifications
 - procedures for removing salvageable vehicle components
- workplace procedures and products for cleaning vehicle component

- workplace procedures for labelling and storing vehicle components.

Assessment Conditions

Assessors must satisfy NVR/AQTF assessor requirements.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of task.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the vehicle components that they have dismantled, e.g. repair orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive workplace or simulated workplace
- workplace instructions
- vehicle manufacturer service and repair manuals
- PPE required to salvage vehicle components
- vehicles with salvageable components as specified in the performance evidence requiring removal
- tools, equipment and materials appropriate for removing salvageable vehicle components.
