Assessment Requirements for AURVTN111 Remove and install vehicle rear vision mirrors

Release: 1

Assessment Requirements for AURVTN111 Remove and install vehicle rear vision mirrors

Modification History

Release	Comments
Release 1	This version first released with AUR Automotive Retail, Service and Repair Training Package Version 6.0

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- remove and install rear vision mirrors on three different vehicles.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- methods to locate and interpret information required to remove and replace rear vision mirrors, including:
 - safety data sheets (SDS) relating to adhesives
 - manufacturer's specifications or equivalent documentation
- workplace procedures required to remove and replace rear vision mirrors, including:
 - establishing the serviceability of tools and equipment
 - documentation procedures
 - housekeeping procedures, including:
 - examination of tools and equipment
 - storage of equipment
 - identification, tagging and isolation of faulty equipment
 - disposal of excess materials
 - recycling procedures
- workplace health and safety (WHS) requirements relating to removing and installing vehicle rear vision mirrors, including procedures for:
 - selecting and using personal protective equipment (PPE)
 - using tools, equipment and adhesives
 - using safety data sheets (SDS) for adhesives
 - cleaning glass surfaces

- environmental requirements relating to removing and installing vehicle rear vision mirrors, including procedures for trapping, storing and disposing of waste materials and adhesives
- mirror removal and installation methods and techniques, including:
 - types and use of equipment and materials
 - glass and rear vision mirror surface cleaning
 - types of mirror adhesives and their application
 - correct placement and location of rear vision mirrors
- procedures for protecting vehicle and components when removing and installing mirrors
- procedures for final inspection of fitted rear vision mirrors.

Assessment Conditions

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of tasks.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the rear vision mirrors they have removed and installed, e.g. work orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive workplace or simulated workplace
- workplace instructions
- SDS for adhesives
- adhesives or adhesive system
- cleaning products
- three different vehicles requiring the removal and installation of rear vision mirrors
- tools, equipment and materials appropriate for removing and installing rear vision mirrors.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
