Assessment Requirements for AURVTN132

Inspect vehicle damage and determine repair procedures

Release: 1

Assessment Requirements for AURVTN132 Inspect vehicle damage and determine repair procedures

Modification History

Release	Comments
Release 1	This version first released with AUR Automotive Retail, Service and Repair Training Package Version 6.0

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- inspect at least three different damaged vehicles and legibly prepare damage inspection reports and recommended repair plans for each.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- methods to locate and interpret information required to inspect vehicle damage and determine repair procedures, including:
 - information provided by customer and supervisors
 - manufacturer specifications and procedures or equivalent documentation
- workplace procedures required to inspect vehicle damage and determine repair procedures, including:
 - establishing serviceability of tools and equipment
 - documentation procedures, including:
 - photographs
- work health and safety (WHS) requirements relating to inspecting vehicle damage and determining repair procedures, including procedures for:
 - selecting and using personal protective equipment (PPE)
 - using measuring equipment
- original equipment manufacturer (OEM) or authorised agency's vehicle specifications and repair procedures
- types and application of vehicle inspection methods, including:
 - visual checking
 - physical checking, including:
 - taking measurements

- partial dismantling
- referencing OEM or authorised agency's specifications
- procedures to determine indirect damage
- reporting requirements, including:
 - material list
 - estimation of time required to complete repairs.

Assessment Conditions

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of tasks.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the damaged vehicles that they have inspected, e.g. work orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive workplace or simulated workplace
- workplace instructions
- OEM or authorised agency's vehicle specifications and repair procedures
- three different damaged vehicles requiring inspection
- tools, equipment and materials appropriate for inspecting vehicle damage and determining repair procedures.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
