Assessment Requirements for AURVTN138

Carry out basic repairs to vehicle body panels

Release: 2

Assessment Requirements for AURVTN138 Carry out basic repairs to vehicle body panels

Modification History

Release	Comments
Release 2	This version released with the Automotive Retail, Service and Repair Training Package Version 7.0. Updated to resolve mapping errors.
Release 1	This version first released with the Automotive Retail, Service and Repair Training Package Version 6.0

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- carry out basic repairs on at least two different vehicle body panels, including:
 - at least one vehicle mud guard
 - at least one vehicle door.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- methods to locate and interpret information required to carry out basic repairs to vehicle body panels, including:
 - information provided by customer and supervisors
 - manufacturer specifications and procedures or equivalent documentation
- workplace procedures required to carry out basic repairs to vehicle body panels, including:
 - establishing serviceability of tools and equipment
 - documentation procedures
 - housekeeping procedures, including:
 - examination of tools and equipment
 - storage of equipment
 - identification, tagging and isolation of faulty equipment
 - disposal of excess materials

- recycling procedures
- work health and safety (WHS) requirements relating to carrying out basic repairs to vehicle body panels, including procedures for:
 - selecting and using personal protective equipment (PPE), including safety glasses, ear protection and safety footwear
 - using hand tools
- environmental requirements, including procedures for trapping, storing and disposing of waste produced during body panel repair processes
- types and construction of vehicle body panels
- body panel repair procedures, including:
 - basic panel beating
 - types and application of body fillers
 - basic body filler repair.

Assessment Conditions

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the body panels that they have repaired, e.g. repair orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive repair workplace or simulated workplace
- PPE for carrying out panel repairs
- one vehicle mud guard
- one vehicle door
- tools, equipment and materials appropriate for repairing body panels.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
