Assessment Requirements for AURVTP021 Restore vehicle body exterior paint

Release: 1

Assessment Requirements for AURVTP021 Restore vehicle body exterior paint

Modification History

Release	Comment
Release 1	New unit of competency.

Performance Evidence

Before competency can be determined, individuals must demonstrate they can perform the following according to the standard defined in this unit's elements, performance criteria, range of conditions and foundation skills:

- restore exterior paint on the following vehicle surfaces:
 - bonnet
 - roof
 - boot
 - vehicle side.

Knowledge Evidence

Individuals must be able to demonstrate knowledge of:

- work health and safety (WHS) and occupational health and safety (OHS) requirements relating to restoring vehicle body exterior paint, including procedures for:
 - selecting and using personal protective equipment (PPE)
 - using safety data sheets (SDS) for polishing and cleaning agents
 - handling and storing polishing materials
 - using tools and equipment
- environmental requirements, including procedures for trapping, storing and disposing of waste materials
- paint manufacturer specifications
- types of vehicle body exterior finishing faults, including:
 - colour change
 - surface variations
 - rework

- pitting
- types and features of cleaning, polishing and restoration agents and their recommended applications
- types and use of cleaning and polishing tools and equipment
- cleaning and polishing methods and techniques, including:
 - identifying paint surface faults
 - surface preparation methods
 - applying polishing materials
- procedures for protecting vehicle and components when restoring exterior paint
- procedures for final inspection of restored vehicle exterior paint.

Assessment Conditions

Assessors must satisfy NVR/AQTF assessor requirements.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of task.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the vehicle body exterior paint that they have restored, e.g. work orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive repair workplace or simulated workplace
- workplace instructions
- PPE required to restore vehicle exterior painted surfaces
- SDS for polishing and cleaning agents
- polishing and cleaning materials required to restore vehicle exterior paintwork
- vehicle painted components specified in the performance evidence requiring restoring and polishing
- tools, equipment and materials appropriate for restoring vehicle body exterior paint.
