AURVTP104 Apply basic colour matching techniques using vehicle paint codes

Release: 1

AURVTP104 Apply basic colour matching techniques using vehicle paint codes

Modification History

Release	Comments
Release 1	This version first released with AUR Automotive Retail, Service and Repair Training Package Version 6.0

Application

This unit describes the skills and knowledge required to colour match paints using original equipment manufacturer (OEM) paint codes. This unit involves preparing for the task, selecting and using specialist tools and equipment, preparing colour matching test cards, mixing and spraying paint and conducting a visual colour match, and completing workplace processes and documentation.

The unit applies to those working in the automotive paint refinishing repair industry.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Unit Sector

Vehicle Body Technical - Paint

Elements and Performance Criteria

ELEMENTS	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to apply basic colour matching techniques	1.1 Identify job requirements from workplace instructions 1.2 Identify hazards associated with the work, assess potential risks and implement control measures in line with workplace policies and procedures 1.3 Identify tools, equipment and chemicals required for repair activity and establish serviceability according to workplace procedures
2. Mix paint colour	2.1 Set up and check paint measuring system required for job according to workplace procedures 2.2 Carry out colour mixing using methods, tools, equipment

ELEMENTS	PERFORMANCE CRITERIA
	and materials, according to workplace procedures
3. Prepare colour test cards and perform visual matching	3.1 Prepare and spray test cards according to workplace procedures, OEM paint codes, workplace health and safety and environmental requirements 3.2 Carry out visual matching and make comparisons between matched and original paint, and record paint codes 3.3 Remix paint for further matching if mix does not match original paint
4. Complete work processes	4.1 Conduct final inspection according to workplace procedures and confirm vehicle is ready for use 4.2 Clear work area and dispose of or recycle materials according to workplace procedures 4.3 Complete documentation according to workplace procedures

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

SKILL	DESCRIPTION
Learning	Locates required sources of information efficiently.
Reading	- Interprets workplace instructions such as job cards - Organises and interprets technical information from workplace procedures, manufacturer specifications, industry standards and safety data sheets (SDS).
Oral communication	- Clarifies instructions and procedures - Reports quality issues and job outcomes clearly
Numeracy	- Interprets OEM paint codes and formulas - Uses basic mathematical operations, including addition, subtraction, multiplication and division - Determines ratios and calculate quantities of paint and materials.
Planning and organising	- Plans own work requirements - Prioritises actions to achieve required outcomes - Ensures tasks are completed within workplace timeframes.
Technology	Uses specialist tools and equipment.

Unit Mapping Information

Supersedes and is equivalent to AURVTP004 Apply basic colour matching techniques using vehicle paint codes.
