Assessment Requirements for AURVTS002 Repair wooden components in vehicles

Release: 1

Assessment Requirements for AURVTS002 Repair wooden components in vehicles

Modification History

Release	Comment
Release 1	New unit of competency.

Performance Evidence

Before competency can be determined, individuals must demonstrate they can perform the following according to the standard defined in this unit's elements, performance criteria, range of conditions and foundation skills:

- repair two of the following vehicle components using wood materials:
 - plugs
 - moulds
 - frames
 - flooring.

Knowledge Evidence

Individuals must be able to demonstrate knowledge of:

- work health and safety (WHS) and occupational health and safety (OHS) requirements relating to repairing wooden components in vehicles, including procedures for:
 - selecting and using personal protective equipment (PPE)
 - handling and storing vehicle plugs, moulds, frames and flooring
 - using tools and equipment
- environmental requirements, including procedures for storing and disposing of waste materials and adhesives
- wood repair procedures and techniques, including:
 - types and application of wood working tools and equipment
 - types and features of wood
 - types and application of adhesives
 - measuring techniques
 - patterns and template development

- procedures for final inspection of repaired wooden plugs, moulds, frames and flooring components.

Assessment Conditions

Assessors must satisfy NVR/AQTF assessor requirements.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of tasks.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to wooden vehicle components that they have repaired, e.g. repair orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive repair workplace or simulated workplace
- workplace instructions
- PPE required to repair wooden components
- materials required to repair wooden components
- wooden components specified in the performance evidence requiring repair
- tools, equipment and materials appropriate for repairing wooden components in vehicles.
