Assessment Requirements for AURVTT002

Carry out repairs and alterations to automotive and marine trim

Release: 1

Assessment Requirements for AURVTT002 Carry out repairs and alterations to automotive and marine trim

Modification History

Release	Comment
Release 1	New unit of competency.

Performance Evidence

Before competency can be determined, individuals must demonstrate they can perform the following according to the standard defined in this unit's elements, performance criteria, range of conditions and foundation skills:

- repair or alter three different automotive or marine covers and trim, in which the work must involve:
 - one repair
 - one alteration.

Knowledge Evidence

Individuals must be able to demonstrate knowledge of:

- work health and safety (WHS) and occupational health and safety (OHS) requirements relating to carrying out repairs and alterations to automotive and marine trim, including procedures for:
 - selecting and using personal protective equipment (PPE)
 - using specialist tools and equipment
- environmental requirements, including procedures for storing and disposing of waste materials
- types and uses of trim material and trimming tools and equipment
- trim repair and alteration techniques and procedures suitable for different types of trim materials, including:
 - detecting faults
 - trim measuring and cutting
 - trim removal and replacement
 - trim repair and alteration
- procedures for final inspection of trim repair and alterations.

Assessment Conditions

Assessors must satisfy NVR/AQTF assessor requirements.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of tasks.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the automotive and marine trim that they have repaired and altered, e.g. repair orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive or marine trimming workplace or simulated workplace
- workplace instructions
- PPE to carry out trim repairs and alterations
- trim materials to carry out trim repairs and alterations
- three different vehicle or marine covers or trim requiring repairs or alterations
- sewing machine
- tools, equipment and materials appropriate for carrying out trim repairs and alterations.
