Assessment Requirements for AURVTT017 Fabricate and install automotive and marine floor coverings

Release: 1

Assessment Requirements for AURVTT017 Fabricate and install automotive and marine floor coverings

Modification History

Release	Comment
Release 1	New unit of competency.

Performance Evidence

Before competency can be determined, individuals must demonstrate they can perform the following according to the standard defined in this unit's elements, performance criteria, range of conditions and foundation skills:

- fabricate and install one complete automotive or marine floor covering to specification.

Knowledge Evidence

Individuals must be able to demonstrate knowledge of:

- work health and safety (WHS) and occupational health and safety (OHS) requirements relating to fabricating and installing automotive or marine floor coverings, including procedures for:
 - selecting and using personal protective equipment (PPE)
 - using specialist tools and equipment
 - manually handling materials
- environmental requirements, including procedures for storing and disposing of waste materials
- type, use and basic maintenance of sewing and trimming tools and equipment
- types of floor coverings and insulation and their application
- methods and techniques for fabricating and installing floor coverings, including:
 - selecting materials
 - planning
 - measuring
 - marking out
 - cutting
 - sewing
 - using adhesives

- fitting and fastening
- procedures for protecting vehicle and components when installing floor coverings
- procedures for final inspection of fabricated and installed floor coverings.

Assessment Conditions

Assessors must satisfy NVR/AQTF assessor requirements.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of tasks.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the vehicle or vessel floor coverings that they have fabricated and installed, e.g. work order.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive or marine trimming workplace or simulated workplace
- workplace instructions
- PPE required to fabricate and install floor coverings
- materials required to fabricate and install floor coverings
- one vehicle or vessel requiring floor coverings to be installed
- tools, equipment and materials appropriate for fabricating and installing floor coverings.
