Assessment Requirements for AURVT001 Remove, replace and test non-electrical vehicle components and accessories

Release: 1

Assessment Requirements for AURVT V001 Remove, replace and test non-electrical vehicle components and accessories

Modification History

Release	Comment
Release 1	New unit of competency.

Performance Evidence

Before competency can be determined, individuals must demonstrate they can perform the following according to the standard defined in this unit's elements, performance criteria, range of conditions and foundation skills:

- remove, replace, fit and test three different non-electrical components and accessories, including two of the following:
 - bonnet and boot locking system
 - side window assemblies
 - door key locks
 - wiper blade assemblies
 - seat assemblies.

Knowledge Evidence

Individuals must be able to demonstrate knowledge of:

- work health and safety (WHS) and occupational health and safety (OHS) requirements relating to removing, replacing and testing non-electrical vehicle components and accessories, including procedures for:
 - selecting and using personal protective equipment (PPE)
 - handling and storing non-electrical components and accessories
 - using tools and equipment
- environmental requirements, including procedures for trapping, storing and disposing of waste materials
- vehicle manufacturer specifications and repair and service manuals
- removal, replacement and testing methods and techniques, including:
 - type and use of components and accessories

- procedures to remove, replace, fit and test a range of non-electrical components and accessories
- procedures for final inspection and testing of fitted non-electrical components and accessories.

Assessment Conditions

Assessors must satisfy NVR/AQTF assessor requirements.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessment must include direct observation of tasks.

Where assessment of competency includes third-party evidence, individuals must provide evidence that links them to the non-electrical components that they have removed, replaced and tested, e.g. work orders.

Assessors must verify performance evidence through questioning on skills and knowledge to ensure correct interpretation and application.

The following resources must be made available:

- automotive repair workplace or simulated workplace
- workplace instructions
- vehicle manufacturer specifications and repair and service manuals
- PPE required to remove, replace and test non-electrical vehicle components and accessories
- vehicles requiring the non-electrical components and accessories specified in the performance evidence to be removed, replaced and tested
- tools, equipment and materials appropriate for removing, replacing and testing non-electrical vehicle components and accessories.
