AVI59922 Diploma of Aviation (Chief Remote Pilot)

Release 1

AVI59922 Diploma of Aviation (Chief Remote Pilot)

Modification History

Release 1. This is the first release of this qualification in the Aviation Training Package.

Qualification Description

This qualification reflects the role of Chief Remote Pilots (CRPs) performing operational management duties in support of Remote Pilot Aircraft System (RPAS) operations.

This qualification is intended for remote pilots who wish to enter the CRP role; those who are currently holding the position of, or acting in the position of CRP; those who are responsible for remote flight operations management within an organisation; or those looking to enhance their level of understanding of flight operations and operational risk.

CRP duties include applying technical and non-technical aviation skills and knowledge in support of a wide range of operational tasks, including risk management, crew coordination and training.

Individuals working at this level will apply knowledge and skills to demonstrate autonomy and judgement in a defined responsibility role in known or changing contexts within broad but established parameters.

This qualification is not currently a licensing requirement (by the Civil Aviation Safety Authority (CASA)) to become a CRP, however, it will provide the skills and knowledge to perform the role.

Use for Defence Aviation is to be in accordance with relevant Defence Orders, instructions, publications and regulations.

Occupations may include:

- Chief Remote Pilot
- Deputy Chief Pilot
- Senior Base Pilot.

Entry Requirements

Individuals undertaking this qualification must have the CASA Remote Pilot Licence (RePL) or AVI30419 Certificate III in Aviation (Remote Pilot) or its successor.

In addition, individuals must have an Aeronautical Radio Operator Certificate (AROC).

Packaging Rules

A total of **12 units of competency**, comprising:

9 core units listed below, **plus:**

3 general elective units from the general elective units listed below.

Up to 2 of the general elective units may be selected from any relevant nationally endorsed Training Package or accredited course. The general elective units must contribute to the vocational outcomes of the qualification.

Where imported units are selected, care must be taken to ensure that all prerequisite units specified are complied with.

Core units

AVIE0005	Complete a Notice to Airmen (NOTAM)
AVIF0020	Manage human factors and situational awareness in an aviation operational environment
AVIF0028	Manage aviation risk
AVIG0004	Apply regulatory obligations
AVIG0005	Conduct aviation on-the-job training
AVIH0007	Operate remote pilot aircraft systems under night visual line of sight (NVLOS)
AVIN0006	Manage RPAS assets
AVIP0001	Manage RPAS applications, approvals, and permissions
AVIW0035	Manage multi-crew operations

General Elective Units

AVIF0022	Maintain work health and safety procedures in remote pilot aircraft systems
AVIH0008	Operate remote pilot aircraft systems in extended visual line of sight (EVLOS)
AVIL0002	Manage shifts, crewing and rostering activities in aviation
AVIW0033	Coordinate the removal of disabled aircraft
BSBOPS302	Identify business risk
BSBPEF501	Manage personal and professional development
BSBPMG634	Facilitate stakeholder engagement
ICTICT424	Address cyber security requirements

MEA118

Conduct self in the aviation maintenance environment

Qualification Mapping Information

New qualification. No equivalent qualification.
