Assessment Requirements for AVID0003 Package dangerous goods for air transport

Release: 1

Assessment Requirements for AVID0003 Package dangerous goods for air transport

Modification History

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least one occasion and include:

- applying precautions and required action to minimise, control or eliminate identified hazards
- applying relevant legislation and workplace procedures
- communicating effectively with others
- completing relevant documentation, including labelling and marking packaged dangerous goods
- identifying and correctly using relevant equipment
- implementing work health and safety (WHS) procedures and relevant regulations
- interpreting and following operational instructions and prioritising work
- modifying activities depending on workplace contingencies, situations and environments
- monitoring and anticipating operational problems and hazards and taking appropriate action
- reading, interpreting and following relevant regulations, instructions, procedures, information, signs and labels
- reporting and/or rectifying identified problems promptly in accordance with regulatory requirements and workplace procedures
- selecting and using required personal protective equipment (PPE) conforming to industry and WHS standards.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- characteristics and ways of identifying various classes of dangerous goods
- documentation requirements for transporting appropriate dangerous goods by air
- problems that may occur when packaging dangerous goods for air transport and appropriate action that should be taken in each case
- relevant regulatory requirements pertaining to packaging, packing, marking, labelling, documenting, storing and despatching dangerous goods designated for air transport, including International Air Transport Association (IATA) and Civil Aviation Safety Authority (CASA) requirements
- relevant WHS/OHS and environmental procedures and regulations

- risks that exist when packaging dangerous goods for air transport and related risk control procedures and precautions
- safety principles for packaging dangerous goods for air transport
- workplace procedures for packaging, packing, marking, labelling, documenting, storing and despatching dangerous goods designated for air transport.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- relevant materials, tools, equipment and personal protective equipment currently used in industry.
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- acceptable means of simulation assessment.
