Assessment Requirements for AVIF0036 Implement regulations and policies during aviation safety and service operations

Release: 1

Assessment Requirements for AVIF0036 Implement regulations and policies during aviation safety and service operations

Modification History

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions on at least one occasion and include:

- adapting to differences in equipment and operating environment in accordance with standard operating procedures (SOPs)
- applying relevant legislation and workplace procedures
- communicating effectively with others
- completing relevant documentation
- complying with established industrial relations practices and requirements
- complying with relevant local laws and regulations
- complying with relevant regulations and legal obligations
- identifying and correctly using relevant equipment
- implement contingency plans
- implementing work health and safety (WHS) procedures and relevant regulations
- modifying activities depending on workplace contingencies, situations and environments
- monitoring and anticipating operational problems, including safety and security hazards, and taking appropriate action
- monitoring work activities in terms of planned schedule
- operating electronic communications equipment to required standard
- reading interpreting and following relevant instructions, regulations, procedures, information and signs
- reporting and/or rectifying problems, faults or malfunctions promptly in accordance with workplace procedures
- responding appropriately to cultural differences in the workplace
- selecting and using required personal protective equipment conforming to industry and WHS standards
- working collaboratively with others
- working systematically with required attention to detail without injury to self or others, or damage to goods or equipment.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions and include knowledge of:

- established industrial relations practices and requirements, including:
 - company or enterprise
 - state/territory legislation
 - commonwealth legislation
- relevant Civil Aviation Regulations (CARs) Civil Aviation Safety Regulations (CASRs), Civil Aviation Orders, and Manual of Standards (MOS) pertaining to integrated safety and operational responsibilities related to the individual's work role, including:
 - flight crew
 - cabin crew
 - flight support personnel
 - emergency services personnel
 - ground crew
 - maintenance personnel
- relevant WHS procedures and relevant regulations
- drug and alcohol management plan (DAMP)
- relevant local laws and regulations, including:
 - international
 - domestic.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals

- relevant materials, tools, equipment and personal protective equipment (PPE) currently used in industry.
