**Assessment Requirements for AVIF0047
Apply awareness of dangerous goods and
hazardous substances in the transport
security environment**

Assessment Requirements for AVIF0047 Apply awareness of dangerous goods and hazardous substances in the transport security environment

Modification History

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions on at least one occasion and include:

- checking relevant dangerous goods and/or hazardous substances segregation in accordance with class and subsidiary risk information/documentation
- communicating effectively with others by verbal, non-verbal, written and digital means according to workplace procedures
- completing relevant documentation
- identifying and accessing legislation and workplace procedures for transporting hazardous substances and dangerous goods
- identifying containers and goods coding, markings and emergency information panels
- identifying dangerous goods and hazardous substance labels
- identifying job hazards and taking required action to minimise, control or eliminate identified hazards
- implementing contingency plans
- interpreting relevant instructions, procedures, information and signage.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements, performance criteria and range of conditions and include knowledge of:

- dangerous goods as per Civil Aviation Safety Authority (CASA) lists
- dangerous goods/hazardous substances using labels, and other relevant identification criteria
- problems that may arise when handling dangerous goods and hazardous substances and actions that should be taken to prevent or solve these problems
- relevant national, state/territory regulations and codes of practice for identifying and labelling dangerous goods and hazardous substances, including appropriate sections of the current Australian Dangerous Goods (ADG) Code and other applicable legislation
- segregation requirements for dangerous goods/hazardous substances

- workplace procedures for handling and storing dangerous goods/hazardous substances.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations where it is appropriate to do so; where this is not appropriate, assessment must occur in simulated workplace operational situations that replicate workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
