AVIM5005 Conduct training for the issue of an endorsement

Release: 1

AVIM5005 Conduct training for the issue of an endorsement

Modification History

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

Application

This unit involves the skills and knowledge required to conduct training for the issue of an endorsement, in compliance with relevant regulatory requirements of the Civil Aviation Safety Authority (CASA) and national operating standards.

It includes developing training and briefing plans, conducting pre- and post-flight briefings, and conducting training. It also includes assessing competence, and completing post-training administration.

This unit addresses aviation non-technical skill requirements (physical, mental and task-management abilities) related to training and assessment duties flight instructors, and contributes to safe and effective performance in complex aviation operational environments.

Operations are conducted as part of recreational, commercial and military aircraft activities across a variety of operational contexts within the Australian aviation industry.

Work is performed independently or under limited supervision as a single operator or within a team environment.

Work is performed independently or under limited supervision within a single-pilot or multi-crew environment.

Licensing, legislative, regulatory or certification requirements are applicable to this unit.

Use for Defence Aviation is to be in accordance with relevant Defence Orders, Instructions, Publications and Regulations.

Pre-requisite Unit

Not applicable.

Competency Field

M – Training and Assessment

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

Elements describe the essential outcomes.

PERFORMANCE CRITERIA

Performance criteria describe the performance needed to demonstrate achievement of the element.

1 Develop training and briefing plans	1.1	Training plan is prepared that identifies each ground briefing and flight exercise required to achieve the standard specified to issue an endorsement or military equivalent
	1.2	Hazards are identified, risks are assessed and hazard management is implemented
	1.3	Briefing plan is produced that addresses technical and human factors knowledge required to issue an endorsement or military equivalent
	1.4	Airborne training plan is prepared that identifies the sequence and duration of each flight training exercise required to achieve the standard specified to issue of an endorsement or military equivalent
2 Conduct pre- and post-flight briefings	2.1	Pre-flight briefing is delivered for each flight identified in the training plan
	2.2	Pilot under training is debriefed on performance in accordance with established workplace procedures
3 Conduct training	3.1	Aeronautical knowledge training is delivered in accordance with training plan and established workplace procedures
	3.2	Flight training sequences are conducted to required standards specified in established workplace procedures
4 Assess competence	4.1	Pilot under training is assessed against competency standards specified to issue an endorsement or military equivalent
	4.2	Pilot under training deficiencies are identified and remedial training is planned as required
5 Complete post-training administration	5.1	Pilot under training results are recorded in accordance with established workplace procedures
	5.2	Relevant staff are informed of pilot under training performance and results
	5.3	Administration procedures required to issue an endorsement or military equivalent are completed in accordance with established workplace procedures

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Unit Mapping Information

This unit replaces and is equivalent to AVIM5005A Conduct training for the issue of an endorsement.
