Assessment Requirements for AVIN0006 Manage RPAS assets

Release: 1

Assessment Requirements for AVIN0006 Manage RPAS assets

Modification History

Release 1. This is the first release of this unit of competency in the Aviation Training Package.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least two separate occasions and include:

- applying environmental requirements in relation to the disposal of assets
- communicating and networking with clients, suppliers, stakeholders and end users
- communicating with personnel
- identifying and selecting equipment and materials for maintenance work
- implementing legislation, industry standards, codes of practice and regulations
- interpreting manufacturer specifications and manuals
- maintaining assets
- managing financial and other resources in the context of asset disposal
- monitoring assets
- planning work
- preparing documentation and audit trail for disposed assets
- reading and applying complex formal documents
- storing and maintaining tools and equipment
- using monitoring and maintenance procedures.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- dangerous goods, handling and segregation
- disposal requirements for special categories of assets
- organisational disposal approval processes
- organisational procurement guidelines
- requirements for asset disposal, including:
 - environmental
 - organisational
 - legal aspects
 - regulatory
- implications of asset disposal for whole-of-life considerations

- risk management procedures for disposal of assets
- risk register
- workplace documentation
- workplace policies and procedures
- work health and safety (WHS) legislated requirements, including:
 - emergency procedures
 - risk control measures
 - safe working practices.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment (PPE) currently used in industry
- serviceability and use of PPE
- serviceability and use of tooling
- serviceability and use of emergency equipment.
