AVIO0008 Establish and maintain a sterile sensitive area

Release: 1

AVIO0008 Establish and maintain a sterile sensitive area

Modification History

Release 1. This is the first release of this unit of competency in the AVI Aviation Training Package.

Application

This unit involves the skills and knowledge required to establish and maintain a sterile sensitive area at a security-controlled area, in compliance with relevant regulatory requirements and national operating standards.

It includes: establishing sterile sensitive area; recognising and reporting a breach; and completing required documentation.

This unit addresses transport security technical skill requirements (physical, mental and task-management abilities) related to transport security duties of aviation, maritime and air cargo security personnel, and contributes to safe and effective performance in operational transport security environments.

Operations are conducted as part of transport security across a variety of operational aviation, maritime and air cargo contexts within the Australian industry.

Work is performed independently or under limited supervision as a single operator or within a team environment.

Licensing, legislative, regulatory or certification requirements are applicable to this unit.

Pre-requisite Unit

Not applicable.

Competency Field

O – Security

Unit Sector

Not applicable.

Elements and Performance Criteria

ELEMENTS

PERFORMANCE CRITERIA

Elements describe the essential outcomes.

Performance criteria describe the performance needed to demonstrate achievement of the element.

- | | |
|---|--|
| 1 Establish sterile sensitive area | 1.1 Sterile sensitive areas are established as required in accordance with workplace procedures

1.2 Sterile sensitive areas are re-established following a breach, evacuation or equipment failure as required, in accordance with workplace procedures |
| 2 Recognise and report a breach | 2.1 Breaches or potential breaches of sterile sensitive areas are recognised

2.2 Breaches or potential breaches are reported to designated personnel in accordance with the organisation's transport security program and workplace procedures

2.3 Information about breaches or potential breaches is collected in accordance with workplace procedures

2.4 Nature of breaches or potential breaches is determined in accordance with the organisation's transport security program and workplace procedures

2.5 Appropriate action is taken on a breach in accordance with the organisation's transport security program and workplace procedures |
| 3 Complete required documentation | 3.1 Record of actions taken to establish and/or re-establish a sterile sensitive area are completed, in accordance with the organisation's transport security program and workplace procedures

3.2 Records of a breach, potential breach, evacuation or equipment failure in a sterile sensitive area are completed, in accordance with the organisation's transport security program and workplace procedures

3.3 Written reports of a breach, potential breach, evacuation or equipment failure and related action to re-establish a sterile sensitive area, are completed and referred to designated personnel in accordance with the organisation's transport security program and workplace procedures |

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Range of Conditions

Range is restricted to essential operating conditions and any other variables essential to the work environment.

Unit Mapping Information

This unit replaces and is equivalent to AVIO2007 Establish and maintain a sterile sensitive area at an airport.
