- a variety of weapons, firearm types, munitions and prohibited items
- requirements for handling firearms and other weapons
- responsibility as first on the scene for seeking assistance and rendering first aid in the event of incidents causing injury
- state/territory and Commonwealth legislation relating to firearms, weapons, explosives and prohibited items
- hierarchy of control
- procedures for handling and storage of identified weapons, explosives, prohibited items

- disposal and storage processes in accordance with regulatory requirements
- completing relevant documentation
- law enforcement officers and other government officers, their roles and responsibilities within a transport security workplace.

Assessment Conditions

As a minimum, assessors must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations current at the time of assessment.

As a minimum, assessment must satisfy applicable regulatory requirements, which include requirements in the Standards for Registered Training Organisations current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment currently used in industry.
